

# *Herbie's Auto Shop*

Bailey, Louis, Karissa, & Reese

# Our project

Ruby on Rails Web application for “Herbie’s Auto Shop”

User will enter the VIN, Make, Model, Year, mileage, OBD code/issue that needs to be fixed, the amount of hours in labor, the amount of cost in parts, and the total cost factoring in the labor and parts cost.

It will also store information about the customer, so a contact number, home address, and name.

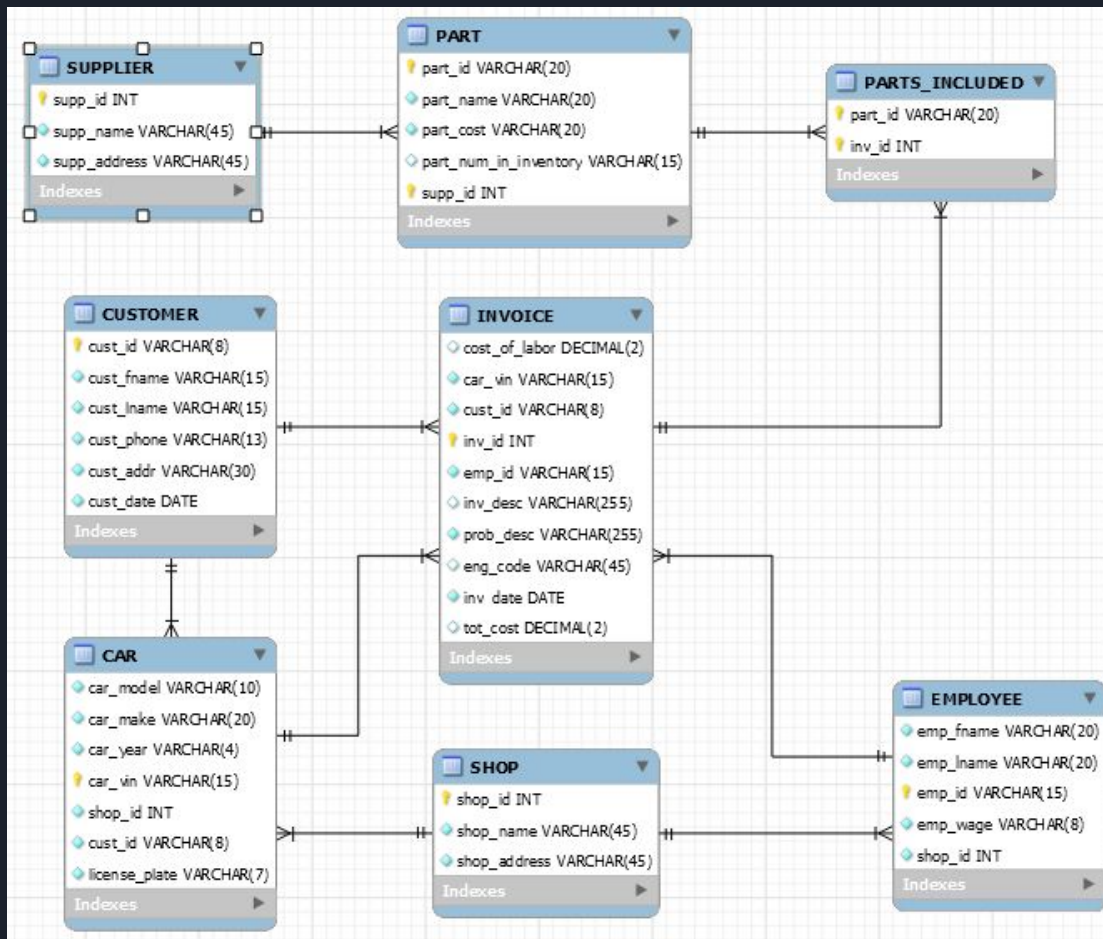

Invoices can be created to display a report

# What we have been working on...

- Updated database structure
- Created rails project
- Basic user interface

# Updated Database Structure

# Demo of our rails application
